

How to download YouTube video and create a DVD

Software requirements:

- ▶ If you want to download YouTube video to MP4 (or FLV file) watch on your computer locally:
 - Download and install **free version of YTD Basic**: <http://www.youtubedownloadersite.com/>
- ▶ If you want to create a DVD to watch on your DVD Player that connected to your TV:
 - Download and install **free version of DVD Flick**: <http://www.dvdflick.net/download.php>

[Download YouTube video to MP4 \(or FLV file\) watch on your computer locally](#)

- 1) While watching the video on YouTube, click on **Share** button, **copy** the link by press **Ctrl-C**

- 2) Start the YTD Basic program, **paste** the link into that box on the top
- 3) Select **Download quality = Best Available**.
- 4) Click on **Download** button then wait until it 100% completed.

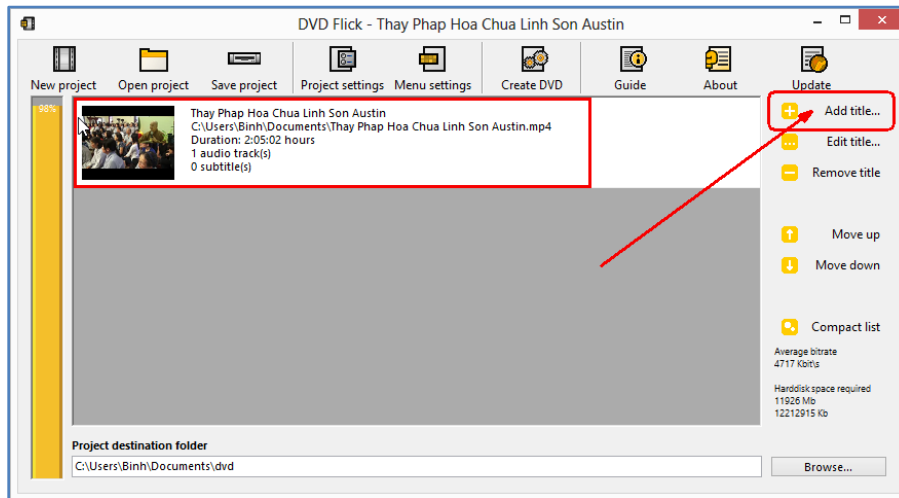

- 5) Repeat step 1-3 for another YouTube video that you want to download.

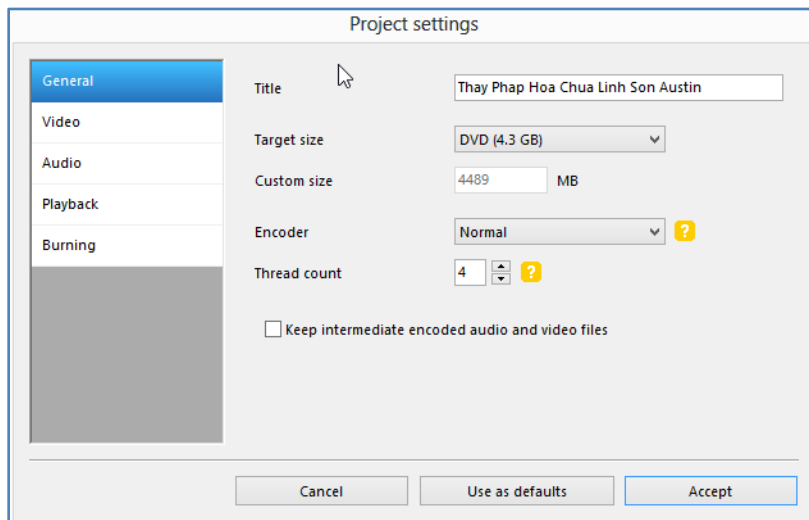

Create a DVD to watch on your DVD Player

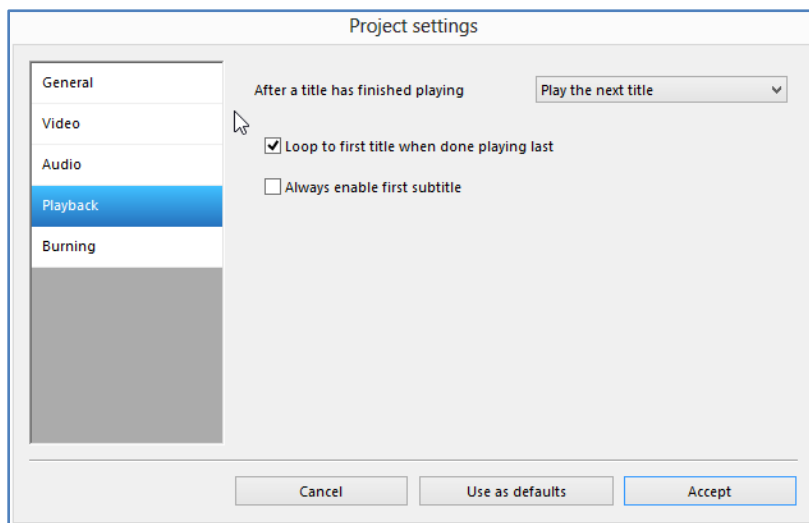

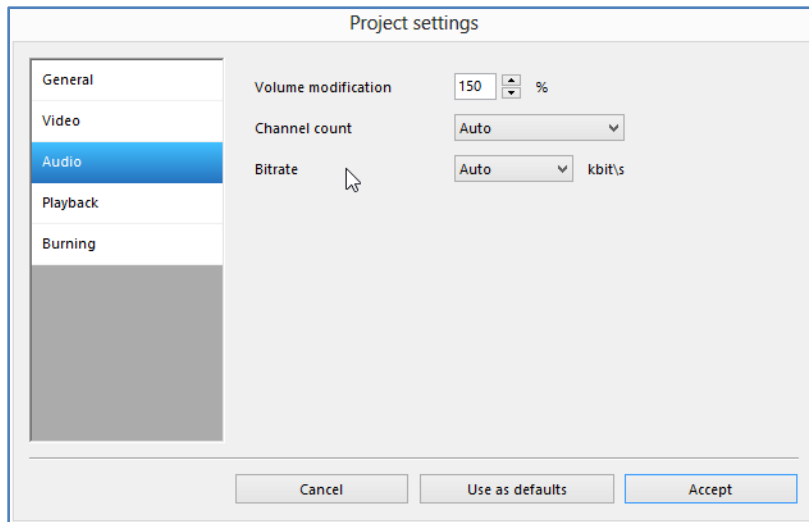

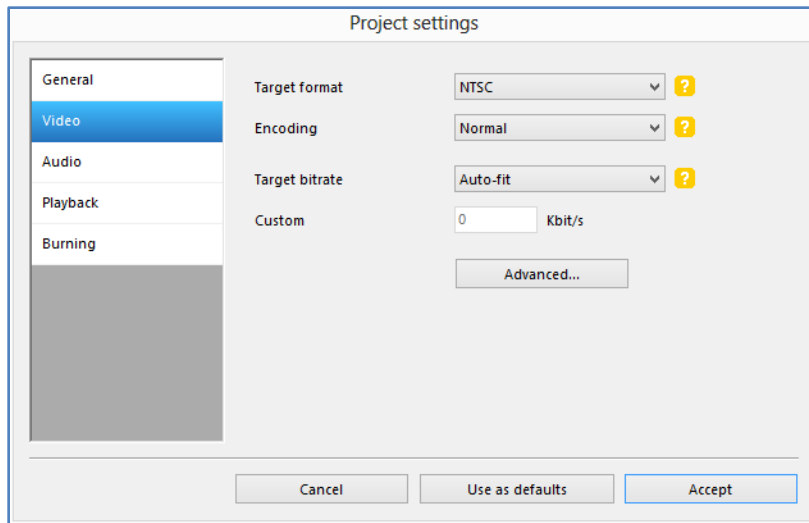

After you get the MP4 (or FLV) file, you need **to rename** the MP4 (or FLV) file to something in English, do not use any Unicode characters (Vietnamese accents), otherwise the **DVD Flick** will tell you that the video file is invalid. For example: "**NIỆM LÀNH SANH TƯỞNG ĐẸP - Thầy Pháp Hòa (Rất Hay) Austin, TX Tue April 2013 Tập 1 of 2).flv**" rename it to "**Thay Phap Hoa Chua Linh Son Austin.flv**"

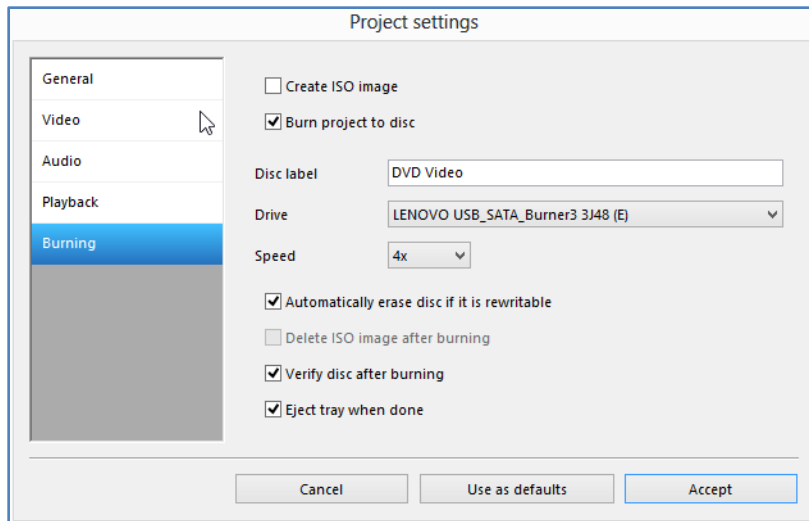

- 1) Start the **DVD Flick** program, click on **"Add title"** and select the **MP4 file** you just downloaded:

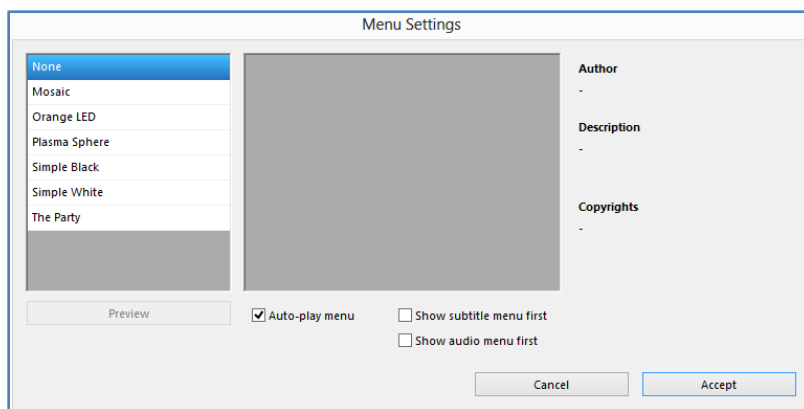

- 2) Click on **Project settings** and make sure you have the following settings:

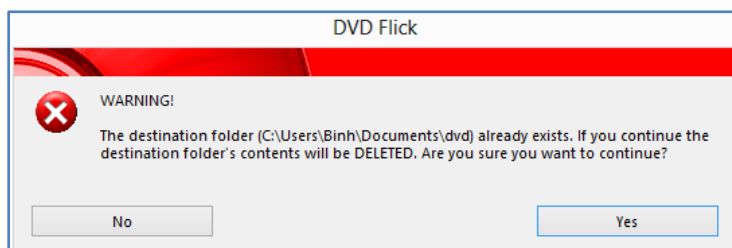

- 3) Click on the **Accept** button to save the settings.
- 4) Click on Menu Setting and make sure you have the following settings (No Menu)

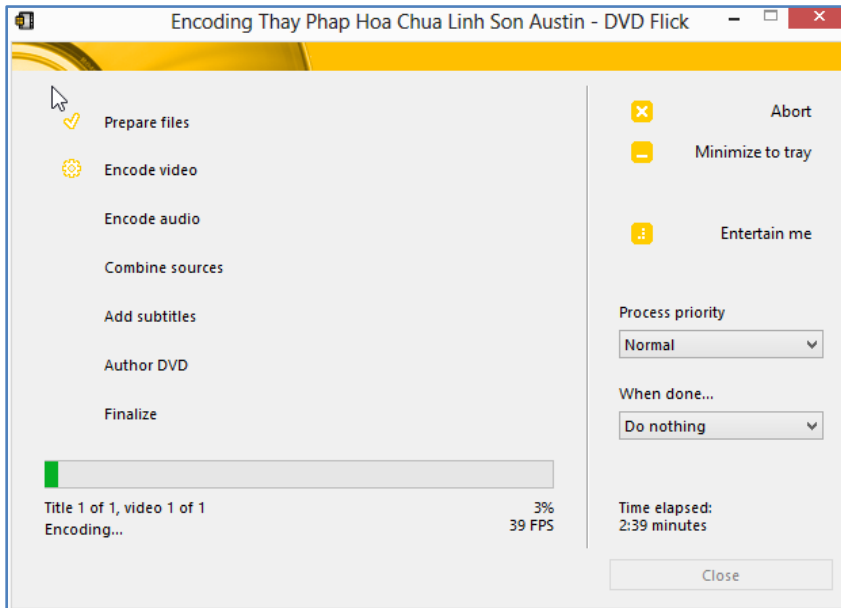

- 5) Click on the **Accept** button to save the settings.
- 6) Click on **Create DVD** button, click **Yes** on the warning:

- 7) Insert a blank DVD into the DVD Burner, click **OK** on the message:

8) When it 100% completed, the DVD will be ejected, take the DVD and try it out on your DVD Player:

Good Luck and Enjoy!
